Following the lockdown of 2020, the DfE is providing catch-up funding to help schools to ensure that their pupils make up lost academic ground as quickly and fully as they can. Each school will receive the equivalent of £80 per pupil, paid in instalments over this school year, and all children are entitled to benefit from this funding in the way that best meets their needs.

Research by the Education Endowment Foundation helps schools to identify the most effective strategies to use in helping their pupils. In line with this guidance, we will be focusing the funding on:

CPD (continuing professional development) for all teachers, so that all pupils benefit from the best possible classroom teaching; and Targeted academic support - small group and one to one interventions for those pupils who need additional help to catch up.

The impact will be measured and monitored to ensure that we are making the best use we can of this funding.
