

Oak Class Spring Term 2023 09.01.23

A New Year and lots of new, exciting learning to come! We have already begun our term by focusing on our new core text: Everest by A Stewart and learning about light in science. The children had to prove that light travels in a straight line by setting up their own enquiries.

At the end of last term, we were lucky to have a fantastic Ukrainian artist visit us in class. She taught the children how to draw and paint an animal on to a wooden disc as a Christmas decoration and also taught us water colour techniques when making Christmas cards.

After a whole term of painstaking perseverance and concentration, we completed our 'Camp Green Lake' T-shirt logo designs, inspired by the book, Holes by Louis Sachar. The children learnt a lot about determination and overcoming barriers to complete their fantastic embroidered logos. Well done Oak class!
